

Internship - Quality (m/f/d)

Description

Cummins is a place big enough to coach and develop a global workforce and create the world's leading clean, engine technology. We're also small enough for you to find your fit and personal passion with a team of dependable, innovative thinkers who are developing their careers within a diverse, inclusive, empowering environment.

Learn more about this role and how you can begin *Working Right* .

Our Components Business Unit delivers reliable, durable, high performing products to our global partners. Working in an innovative space, you'll develop high tech solutions that will fuel your advanced career skill set and empower you to own your career. Our integrated businesses demand the talents and creativity of individuals with a wide range of skills and experience.

Our Quality team offers you a broad insight in their daily work. This includes an operative as well as strategic quality work to ensure both product and customer quality at our site in Marktheidenfeld.

Your tasks:

- Supporting the Quality team in administrative and operative tasks of the daily business, e.g. fault analysis in the plants or complaint processing
- Carry out capability and MSA study at the lines
- Collaboration in various projects, e.g. improvement of the rework concept or in VPI projects

At Cummins, we are dedicated to diversity in the workplace and we are committed to a policy of treating all our employees and job applicants equally. No employee or potential employee will receive less favourable treatment because of any protected characteristic.

Your profile:

- Degree with technical background
- Knowledge of MS Office applications
- First experiences through internships beneficial
- Language skills in German and English
